

NEBOSH International Technical Certificate in Oil & Gas Operational Safety

NEBOSH Oil and Gas Certificate

The NEBOSH Oil & Gas Certificate is designed specifically for those with safety responsibilities in the oil and gas industry. It focuses on international standards and management systems, highlighting the importance of process safety management in the oil and gas industry, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.

The **NEBOSH Oil & Gas Certificate** is suitable for those who have the responsibility for ensuring safety as part of their day to day duties including:

- Managers, supervisors and employee representatives within the oil and gas industry
- Newly appointed health and safety advisers.

Entry Requirements

- **Health and Safety Knowledge** - The NEBOSH Oil & Gas certificate is designed to build on the knowledge gained from the NEBOSH International General Certificate. It is therefore essential that students have studied this course or an equivalent before beginning this course.
- **Experience of the Oil & Gas Industry** - The NEBOSH examiners frequently use terms in exam questions that would normally only be understood by those who have worked in the oil and gas industry itself.

RRC provide a pre reader for those who do not have this knowledge but you should allow up to a further 50 hours study if you need to study the pre-reader.

NEBOSH Oil & Gas Certificate - Content

The NEBOSH Oil and Gas Certificate consists of one unit:

Unit IOG1: Management of International Oil & Gas Operational Safety

- Health, Safety and Environmental Management in Context
- Hydrocarbon Process Safety
- Fire Protection and Emergency Response
- Logistics and Transport Operations

NEBOSH Oil and Gas Certificate - Examination

The examination consists of one 2 Hour written examination.

NEBOSH Oil & Gas Certificate Text Book

International Technical Certificate in Oil & Gas Operational Safety
First Edition (June 2012)
