IEMA Certificate in Environmental Management

IEMA Certificate in Environmental Management

The **IEMA Certificate in Environmental Management** provides detailed knowledge of environment and sustainability principles, and will arm you with management tools and skills to deliver positive change. It is aimed at staff who already have a foundation level of environmental/sustainability knowledge (gained from work experience or through a course such as the IEMA Foundation Certificate).

The **IEMA Certificate in Environmental Management** meets the requirements for **Practitioner Membership of IEMA (PIEMA)** and the first year's subscription is included in your course fees (initially affiliate membership is granted but can be upgraded on successful completion of the course).

Course Content

The **IEMA Certificate in Environmental Management** course covers:

Module 1: Fundamentals of sustainability, business and governance
- Implications of global trends for the environment, society, the economy and for organisations and the role of an environment/ sustainability professional in overcoming these challenges
- Sustainable business/ governance models and principles

Module 2: Environmental principles, policy and legislation
- Enviornmental principles
- Major policy and legislation

Module 3: Environmental management/assessment tools and skills
- Major tools, techniques, systems and practices to develop sustainable products and services and improve sustainability performance
- The role of innovation in developing sustainable products, services and solutions
- Data collection, critical analysis and opportunity assessment for delivery of innovative and sustainable products and services
- Effective communications
- Stakeholder indentification and engagement
- Tools, techniques, systems and practices to identify opportunities and risks
- Project and programme delivery to achieve performance improvements
- Implementing change and transformation

Assessment

The **IEMA Certificate in Environmental Management** is assessed by assignments for each module and an assessment of competence (this forms Module 4 of the programme).
